

Appl. No. : 10/813,611
Filed : March 29, 2004

REMARKS

Paragraph 14 has been amended to correct an obvious typographical error related to dimensional units. In particular, the first character in the units for the width of the dictionary was corrected to recite an "m" instead of a "c". No new matter is added hereby as it would be understood by one of ordinary skill in the art from the description in paragraph 14 that the width dimension of "2" was intended to be in millimeters, not centimeters, to conform to the specification description regarding the size of the dictionary. In particular, paragraph 14 recites "For example, the electronic dictionary can have the same or about the same height, width, and length of a credit card," and further recites "This convenient shape and size of the electronic dictionary allows for storage in the credit card compartment of a wallet," which would not be possible if the width dimension were 2 cm. Similarly, the dictionary height to width ratio is correspondingly corrected to recite 27:1, from 2.7:1 in paragraph 14.
